1 Administrivia

Announcements

Computing rights and responsibilities assignment due Monday.

Assignment

Read 4.4–4.5. Questions on pp. 237–239: 3, 14, and 25. Online quiz.

From Last Time

Evaluating web pages.

Outline

1. Introduction.

2. Lab.

Coming Up

Introducing FrontPage.

2   Introduction

Walk students through the lab, highlighting the tags, etc. they'll need to use:

Step 2: The image type will be visible below the file name.

Step 4: *Don't* forget to quote the filename.

Step 5: The needed tags are `<title></title>`, `<h1></h1>`.

The color attributes go *inside* the `<body>` tag.

Step 6: The tags are `<p>`, `<b></b>`, `<i></i>`, `<font color="red"></font>`, `<font face="Arial"></font>`.

Again, attributes go inside the tag.

Why is *Refresh* important?

Step 7: The tags are `<a href="http://www.goucher.edu/"></a>`, `<img src="filename">`.

Step 8: The tags are `<hr>`.

Note that the script given is a *safe* script.

3   Lab

Refer to handout.
