

Finding Information on the Web

CS 102

60 pts., due Mar. 27

Answer each of the following, which you may find on pp. 362–363 of the textbook:

1. Find It Online: 17. It is easy to get this problem wrong. Be sure to check several sources. Don't confuse the date of an online article with the date of an attack. Hint: the attacks occurred on separate days.
2. Find It Online: 19
3. Find It Online: 21
4. Find It Online: 23
5. Find It Online: 31. It is easy to get this problem wrong, as well. Check several sources. Be careful to distinguish opinion from fact.

Your answers will be evaluated using the following criteria:

- Proper spelling and grammar.
- Correct answer and **citation of online source(s)**. Describe and give examples where appropriate and/or illustrative.

Use Microsoft Word or another word processor to write your answers and then e-mail them to kelliher AT DOMAIN goucher.edu, **but only to that address**, by the beginning of class on the 27th. If you use a word processor other than MS Word, you must send the document formatted and saved in Rich Text Format (a **.rtf** file). A 10% penalty will be applied for each day the assignment is late. After two days I will no longer accept assignments.
