

Homework I

Tom Kelliher, CS 220

Due Sept. 18, 2009*

Remember that the due date is a final due date — late assignments will not be accepted, except for emergencies. Your solutions to these problems should be collated in the order listed below. Make sure that you show work, that you write your solutions in such a way that I will be able to understand how you arrived at them, and that your solutions are legible.

1. 1.4.1.
2. 1.4.6, using the assumptions in 1.4.4.
3. 1.5.5.
4. 1.5.6.
5. 1.6.1, using the parameters given in row a of the table.
6. 1.6.3, using the parameters given in row a of the table.
7. 1.8.1.
8. 1.8.2.
9. 1.16.1, using the parameters given in row b of the table.
10. 1.16.2, using the parameters given in row b of the table.

Each problem is worth five points.

*As discussed in class, for MG this assignment is due Sept. 14, 2009.
