

CS 205

9/22

(1)

- Project Part 2

- short demos Thursday

- Lab 2 - Start Thursday.

Read the Lab handout. You're going to implement 2 classes

- 1) One which implements the Shape interface to represent a compound shape
- 2) One which implements the PathIterator interface to draw the compound shape

Look at Java 8 documentation for Shape and PathIterator

Read Chapter 4, paying close attention to interfaces and polymorphism.
