

Assignment 1

CS 420

Submit your source code for Exercises 2.20 and 2.40. Put your answers for the other exercises into a Word, etc., document and submit it.

1. Exercise 2.4. What parameter did you change? How does changing it eliminate the distortion?
2. Exercise 2.5.
3. Exercise 2.6. What are the new parameters?
4. Exercise 2.11.
5. Exercise 2.20. Submit your program.
6. Exercise 2.25. Explain how you accomplished this. Why does it work?
7. Exercise 2.40. Submit your program.
